

How to use the Webpage Downloader

1. Click the "Select Folder" button to select the folder you want the webpage to be downloaded into.
2. Paste in the URL of the resource page you want to download.
3. Finally click the "Download" button to start the download.
4. Once the download is complete, a new folder will be created in the folder you selected and it will be opened up automatically with the page's contents.

The application will remember the last folder and the last URL you entered even after you close it.
